EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lynn Murray on 5/25/05.

The application has been amended as follows:

In claim 1, line 5 "for performing" has been deleted and —programmed to perform—has been inserted.

In claim 1 line 6 "and methods" has been deleted.

In claim 3, line 1, after "processing unit is" the word —further—has been inserted.

Claim 6. The system of claim 5 wherein the central processing unit is further programmed to compare at least two pathways [are compared] using scores calculated from sequence identity, motif or structural homologies that interrelate nodes and employing coefficients of similarity calculated or selected from gene expression data, [including clone counting of cDNA, EST's promoter regions, or regulatory sequences, electronic northern analysis, immunoprecipitation, microarray data, quantitative real-time polymerase chain reaction, transcript images and yeast two hybrid data;] a promoter similarity matrix, a protein-protein association matrix and a similarities among protein interactions matrix (SCIM matrix) that interrelate modes of the pathways.

In claim 7, line 1, after "processing unit is" the word —further—has been inserted.

In claim 25, line 4, after "comparing nodes" the word —by—has been inserted.

In claim 26, line 4, after "pathway and protein sequences" the phrase —to the system of claim 1—has been inserted.

Art Unit: 1631

The following is an examiner's statement of reasons for allowance: The closest prior art of record (Kuffner, Nakao and Seilhamer) do not disclose the semi-linear pathway representation (SLIPR) methods of comparing pathways, as required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.

For all other customer support, please call the USPTO Call Center (UCC) at 800-786-9199.
